Education

Ph.D. in Language Technologies

School of Computer Science, Carnegie Mellon University, 4.02/4.0

Advisor: Prof. Louis-Philippe Morency

Pittsburgh, PA

Aug 2015 – April 2022

B.Tech. in Electrical Engineering

Indian Institute of Technology Kanpur, 9.5/10

Minor: Artificial Intelligence

Kanpur, India

Aug 2011 – May 2015

Research Vision

I work at the intersection of **multimodal generative** modeling and **socially aware AI** companions. I aim to develop cutting-edge techniques that enable AI systems to perceive actions, engage in logical reasoning, and generate realistic reactions in social situations enriched with conversations and interactions.

Experience

Research Scientist, Meta AI

Multimodal Machine Learning

- Developed cutting-edge multimodal (videos, images, and text) content-driven neural networks that enhanced engagement in recommendation systems.
- Successfully scaled these networks to accommodate billions of users and vast amounts of content.
- Designed and implemented personalized user experience systems for billions of users, utilizing rich multimodal content.

Los Angeles, CA

May 2022 – present

Graduate Researcher, Carnegie Mellon University

Advisor: Prof. Louis-Philippe Morency

PhD Thesis - Communication beyond words: Grounding Visual Body Motion with Language

- **Multimodal Grounding:** Developed grounding algorithms that builds a common embedding space for language, acoustics and human body pose for the purposes of co-speech gesture generation.
- **Gesture Style Transfer and Control:** Designed efficient algorithms to transfer idiosyncratic gesture styles of one speaker to another and a many-to-many gesture style transfer set-up.
- **Low-Resource Generative Models:** Designed algorithms to generate co-speech gestures for new speakers with significantly lesser supervision.

Pittsburgh, PA

Aug 2015 – April 2022

Research Intern, Meta Reality Labs (previously Facebook Reality Labs)

Advisor: Shugao Ma

- Designed a neural network model to generate upper body animations in a dyadic conversational setting. These animations are conditioned on avatar's speech, pose history and interlocutor's speech and pose history.
- Used an attention-based model to focus on interpersonal and intrapersonal dynamics as and when indicated by the stimuli to the model.
- Demonstrated the model's effectiveness in generating accurate and natural looking pose sequences via various objective and subjective metrics of evaluation.

Pittsburgh, PA

May 2018 – Aug 2018

Research Intern, Cornell University

Advisor: Prof. Tsuhan Chen

- Designed a system to predict adjectives for a given noun based on an existing set of tags, which increased the vocabulary of the tags while maintaining the sanctity of the noun-adjective pair
- Improved the compatibility of adjectives with respect to nouns based on a probability measure by incorporating a sentence corpus (e.g. British-National-Corpus).

Ithaca, NY

May 2014 – Aug 2014

Undergraduate Researcher, Indian Institute of Technology

Advisor: Prof. Rajesh Hegde

Kanpur, India

May 2013 – May 2015

- Worked towards mimicking a ear with digital filters that can help synthesize **Spatial Audio**.
 - Developed methods to construct ear contours generated by spectral notches of Head Related Transfer Functions (or HRTFs), hence mapping HRTFs to the anthropometry of the ear.
 - Explored relationships between structure of a ear and HRTFs.
- o **Undergraduate Researcher, Indian Institute of Technology Kanpur, India**
 Advisor: Prof. Vinay Namboodiri
Aug 2014 – May 2015
- Proposed and implemented an online system for creating human-centric image summaries of videos.
 - Designed a Kernel-based tracking algorithm for automated live synthesis of video synopsis for human-centric videos.

Honors and Awards

- o [Highlighted Reviewer](#) at ICLR 2022
- o CMU Graduate Research Fellowship, 2015 – 2020
- o Honorable Mention at the LTI Student Research Symposium, 2019
- o Cornell-India summer program at Cornell University, 2014
- o Viterbi-India summer program at the University of Southern California (declined), 2014
- o Summer Undergraduate Research Grant for Excellence ([SURGE](#)) 2013, IIT Kanpur
- o One of the top 7 projects (out of 70) in [SURGE 2013](#)
- o Academic Excellence Awards for distinctive performance, 2011 – 2013, IIT Kanpur
- o All India Rank 231 - Top 0.05% (amongst 4,75,000 students) in IIT-JEE 2011.
- o All India Rank 124 - Top 0.05% (amongst 10,00,000 students) in AIEEE 2011.
